Summary

Java Backend Developer with hands-on experience building 4 full-stack applications using Spring Boot, RESTful APIs, and React.js. Proficient in Java, MongoDB, SQL, and JWT-based authentication. Strong understanding of object-oriented programming (OOP), data structures, and algorithms, with over 700 problems solved on LeetCode. Experienced in version control (Git), API testing (Postman), and building high-performance REST APIs.

Education

Malla Reddy College of Engineering and Technology

2022 – 2026

B.Tech in Computer Science and Engineering (IoT)

CGPA: 9.21

Projects

ATS Resume Score | Spring Boot, React.js, OpenAI API

2024

- Developed a web application to calculate resume ATS scores using OpenAI API
- Implemented backend in Spring Boot with secure RESTful services
- Designed intuitive React UI to upload and evaluate resumes instantly

Wallet Payment System | Spring Boot, React.js, Node.js, MongoDB

2023 – 2024

- Engineered a secure wallet system with balance tracking and transaction logs
- Protected REST APIs with JWT-based authentication via Spring Security
- Built a React.js frontend and tested using JUnit

College Gatepass System | Spring Boot, MongoDB

2022 – 2023

- Built a digital gatepass system used by 50+ students per day
- Created REST APIs and stored approval logs in MongoDB
- Collaborated in Agile sprints as part of a 3-member team

Class Archive | Spring Boot, React.js, Node.js, MongoDB

2023 – 2024

- Built a full-stack academic material sharing platform serving 150+ users
- Used Spring Security and JWT for secure user authentication and permissions
- Connected MongoDB with React UI for live file rendering and preview
- Used Postman for API testing and Maven for dependency management

Freelance & Independent Projects

Clinic Management System | Spring Boot, React.js, MongoDB

2023 – 2024

- Developed a complete appointment management system for clinics
- Built secure portals with Spring Security and managed builds using Maven
- Tested APIs with Postman and designed frontend in React.js

Technical Skills

Languages: Java, Python, JavaScript

Frameworks & Tools: Spring Boot, Spring Security, React.js, Node.js, REST APIs

Testing & Build: JUnit, Postman, Maven

Databases: MongoDB, SQL, NoSQL

Cloud Services: AWS

Concepts: OOPS, Data Structures & Algorithms

Certifications

Java Programming	Completed
Web Development	Completed
Data Structures & Algorithms – Problem Solving Track	LeetCode, GFG

Achievements

Problem Solving Excellence <i>LeetCode & GeeksforGeeks</i>	700+ Problems Solved
Entrepreneurship Program <i>Wadhvani Foundation</i>	Completed
